Ultra Detox Chemical Peel

The skin you want is under the skin you see. Reveal it with our powerful, non-surgical acid-hybrid peel. Our advanced peel technology removes the uppermost layers of the skin at a microscopic level, to immediately tighten, unclog pores, improve lines and leave skin with a younger, velvety-smooth texture. Plus, you'll benefit from detoxifying activated charcoal to draw out aging impurities. Best results achieved with a series of treatments - your esthetician will choose from two different glycolic acid levels to meet your skin's needs each time. \$40

Massage Therapy

Our therapists focus on your specific needs for relaxing your body, relieving the muscle strain and stress caused by everyday tension or injury. Do you have specific areas of concern? Hot Stone Therapy

Our hot stone massage is a specialty massage that uses smooth, heated basalt stones, a black volcanic rock that absorbs and retains heat. The stones are brought to safe temperature just warm enough to be effective. It is a deeply soothing, relaxing form of massage. The heat helps tight muscles release more quickly.

Some benefits of a spa stone massage:

Increases blood circulation, softens muscle tension, reduces muscle pain and muscle spasms, increases flexibility.

Hair Removal

Waxing

Using warm wax application, our experienced estheticians remove unwanted facial and body hair while minimizing discomfort. We take into consideration face shape, hair texture and direction of hair growth for desired results. New hair growth in waxed areas is typically soft and fine, not sharp and coarse like shaved hair.
