Flaxx-C Anti-aging Facial

This breakthrough treatment is created for skin that's showing signs of age — sagging, fine lines and dullness. A thorough cleansing is followed by our exclusive layered exfoliation process, energizing massage and ultratightening mask. It's all designed to restore firmness to sagging skin as it lifts, tightens and smoothes. You'll instantly experience firmer, more resilient skin. \$85

Pumice Peel® Manual Microdermabrasion Treatment

The ultra-fine pumice crystals in this machine-less microdermabrasion treatment peel-away dull, dreary cells, abrade uneven skin and visibly reduce the appearance of fine lines and wrinkles. A skin-resurfacing treatment, it also includes a customized Bioelements mask to infuse nutrients into your newly polished complexion. The results will be brighter skin with improved clarity and a more even tone. It's the ideal option for those who want the effects of microdermabrasion without the machine. \$85

Ultra Detox Chemical Peel

The skin you want is under the skin you see. Reveal it with our powerful, non-surgical acid-hybrid peel. Our advanced peel technology removes the uppermost layers of the skin at a microscopic level, to immediately tighten, unclog pores, improve lines and leave skin with a younger, velvety-smooth texture. Plus, you'll benefit from detoxifying activated charcoal to draw out aging impurities. Best results achieved with a series of treatments - your esthetician will choose from two different glycolic acid levels to meet your skin's needs each time. \$45

Massage Therapy

Customized Massage

Our therapists focus on your specific needs for relaxing your body, relieving the muscle strain and stress caused by everyday tension or injury. Do you have specific areas of concern? Our therapist will customize your massage based on your unique needs. The benefits of massage include pain reduction, stress reduction, improved flexibility and increased circulation. The cumulative benefits of massage therapy are most effective with reoccurring treatments.
